Form for Receiving Individual Supervision During Group Supervision

Some supervisees will want to receive individual supervision hours during group supervision time. This is especially true when supervisees have already acquired the maximum amount of group supervision hours (10) and need more individual hours to reach the 35-hour requirement. This option also allows supervisees to continue to reap the benefits of learning as a group as well as perhaps saving money.

There is limited time for group supervision participants to acquire individual supervision. Therefore, it can be helpful for participants to use this form to arrange individual supervision with their group play therapy supervisor.

Request for Individual Supervision During Group Supervision

I am requesting individual supervision during group supervision on the following date:

I would like to present a case by offering:

Audio Video Transcript Handout Case Discussion

I would like feedback from the group members on:

I would like feedback from the group leader/s on:

I will be incorporating the following teaching aids (Powerpoint, handouts, video, etc.)

**Note, your supervisor does not supply copies of documents. If you are bringing handouts, you are required to supply the copies.*
